

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CONTENTS OF VOLUME IV.

SPECIAL ARTICLES.

	PAGE		PAGE
Abbott, C. C. The color-sense in fishes. <i>Ill.</i>	336	How far a light may be seen under water	421
Hibernation of the lower vertebrates. <i>Ill.</i>	36	Hubbard, G. G. Canal routes between the Atlantic and the Pacific. <i>Map</i>	434
Agassiz association	487	Importance of chemistry in biology and medicine	454
American association for the advancement of science. Proceedings of the section of mathematics and astronomy, 291; of physics, 296; of chemistry, 320; of mechanical science, 322; of geology and geography, 325; of biology, 339; of histology and microscopy, 342; of anthropology, 343; of economic science and statistics	346	Indian languages of South America	138
American association meeting in Philadelphia	189	International polar stations. <i>Map</i>	370
American historical association	312	Johnson, A. B. North-Atlantic currents. <i>Ill.</i>	415
American oriental society	443	Kafiristan	404
American ornithologists' union	374	Koch's work upon tuberculosis, and the present condition of the question	59
American public health association	440	Kunz, G. F. Korean curios. <i>Ill.</i>	172
Armsby, H. P. Special manures for particular crops	57	Langley, J. W. Chemical affinity. Address to the American association	234
Association of official agricultural chemists of the United States	312	Late news from the north-west	474
Babbitt, Franc E. Some implements of the Minnesota Ojibwas. <i>Ill.</i>	527	Lefroy, Sir J. H. Recent geographical discovery. Address to the British association	211
Blake, W. P. The Carson-City ichnolites. <i>Ill.</i>	273	Lesley, J. Peter. <i>Portrait</i>	190
Blanford, W. T. The correlation of geological formations. Address to the British association	208	Limitations of submarine telegraphy. <i>Ill.</i>	438
Botanical club of the American association	358	Lyon, D. G. Semitic notes	378
Bramwell, Sir F. J. The relation of mechanical science to other sciences. Address to the British association	215	Macfarlane, James. The formation of cañons and precipices	99
Branner, J. C. The pororóca, or bore, of the Amazon. <i>Ill.</i>	488	Madison educational convention	112
British association for the advancement of science. Proceedings of the section of mathematical and physical science, 248; of chemical science, 254; of geology, 257; of biology, 260; of geography, 279; of economic science and statistics, 283; of mechanical science, 287; of anthropology	316	Map of the solar system. <i>Ill.</i>	583
British association, some distinctive features of the	203	Meridian conference	376, 406, 421
Brooks, W. K. A new law of organic evolution	532	Merriam, C. H. The coming of the robin and other early birds	571
Carpenter, W. L. Education at the international health exhibition	353	The 'hood' of the hooded seal, <i>Cystophora cristata</i> . <i>Ill.</i>	514
Cholera bacillus. Koch's reply to his critics	554	Minot, C. S. Death and individuality	398
Christmas greeting	563	The organization of an international scientific association, Morning and evening stars, 1885	80
Civil engineers, meeting of, at Buffalo	11	Morse, E. S. Man in the tertiaries. Address to the American association	244
Committee reports of the American association	357	Moseley, H. N. The physiology of deep-sea life. Address to the British association	209
Comparative study of the two associations	271	Munroe, C. E. Recent observations on explosive agents, National conference of electricians	127
Cope, E. D. Catagenesis, or creation by retrograde metamorphosis of energy. Address to the American association	240	New Bogosloff volcano	138
Dall, W. H. A Mussulman propaganda	457	New maps of the heavens. <i>Maps</i>	580
Dana, C. L. A scientific study of lawn-tennis	473	New volcano of the Bering Sea. <i>Ill.</i>	432
Danish international polar station. <i>Ill.</i>	476	Newcomb, Simon. Can ghosts be investigated? Psychic force	372
Davis, W. M. Drumlins. <i>Ill.</i>	418	North-African archeology	438
Temperature and its changes in the United States. <i>Ill.</i>	569	Notices of ethnologic publications	15
Tornadoes, and how to escape them. <i>Ill.</i>	572	October meeting of the National academy of sciences	396
Eaton, John. Scientific methods and scientific knowledge in common affairs	246	Over-pressure in schools	497
Eclipses, 1885. <i>Ill.</i>	578	Overwork in German schools	136
Eddy, H. T. College mathematics. Address to the American association	230	Paul, H. M. Edison's three-wire system of distribution. <i>Ill.</i>	477
Electrical conference, notes on the	313	The equatorial coudé. <i>Ill.</i>	101
Electrical testing establishments	224	Krakatoa	135
Epidemic cholera and infectious diseases	144	Measuring earthquakes. <i>Ill.</i>	516
Excursion map of the vicinity of Baltimore	518	A proposed new departure in hygrometry	137
Exploration of the Kowak River. <i>Ill.</i>	551	Radiant matter in an Edison lamp	374
Exploration of Putnam [Kowak] River, Alaska	496	Peirce, C. S. The 'old stone mill' at Newport. <i>Ill.</i>	512
Filhol, H. The echinoderms dredged by the <i>Talisman</i> . <i>Ill.</i>	102	Philadelphia meeting of the American association	229
The lower forms of life dredged by the <i>Talisman</i> . <i>Ill.</i>	171	Powell, J. W. Certain principles of primitive law	436
Flora of the high Alps	475	Marriage law in savagery	471
Fol, H. The changes which fermentation produces in milk	405	Psychical research in America	359, 369
G., A. George Bentham. <i>Portrait</i>	352	Railway-signals at the electrical exhibition	356
Greene, C. E. Shaft-sinking by freezing	443	Rathbun, R. American appliances for deep-sea investigation. — The dredges. <i>Ill.</i>	146
Greenwich observatory	61	The same. — Trawls and tangles. <i>Ill.</i>	225
Hagen, H. A. Lawsuits against grubs and grasshoppers, Harvard physiological laboratory. <i>Ill.</i>	128	The same. — Miscellaneous. <i>Ill.</i>	400
Higher education and the masses	53	The American initiative in deep-sea dredging	54
History of almanacs. <i>Ill.</i>	492	Rayleigh, Lord. Recent progress in physics. Address to the British association	179
Hochstetter, Ferdinand von. <i>Portrait</i>	470	Rayleigh, Lord, president of the British association. <i>Portrait</i>	161
Holmes, W. H. Burial-masks of the ancient Peruvians. <i>Ill.</i>	10	Ridgway, Robert. The bird-collection in the U.S. national museum	496
Hôtel des Neuchâtelois, and what became of it. <i>Ill.</i>	360	Riley, C. V. The insects of the year	565
		Roberts, I. P. Important agricultural statistics	575
		A few pertinent hints to farmers. <i>Ill.</i>	576
		Rockwood, C. G., jun. Earthquakes in the United States and Canada	569
		Roscoe, H. E. Progress of chemistry since 1848. Address to the British association	206
		Ruby-hill mines, Eureka, Nev.	459

	PAGE		PAGE
S., C. S. Alphonse Lavallée	10	Trowbridge, John. What is electricity? Address to the American association	232
Schwatka, F. The implements of the igloo. <i>Ill.</i>	81	Two large sun-spots. <i>Ill.</i>	460
The Netschilluk Innuits. <i>Ill.</i>	543	Taylor, E. B. How the problems of American anthropology present themselves to the English mind	545
Science calendar, 1885	584	Some American aspects of anthropology. Address to the British association	217
Sella, Quintino. <i>Portrait.</i>	541	University, an ideal, from an English point of view	95
Specialization in scientific study	35	Upton, Winslow. Weather forecasts	568
Standard time-table	581	Verrill, A. E. Evidences of the existence of light at great depths in the sea	8
Stokes, A. C. A burrowing spider. <i>Ill.</i>	114	Visit of the British association	160
Stone, C. P. Navigation of the Nile. <i>Map.</i>	456	Ward, L. F. Irrigation in the upper Missouri and Yellowstone valleys	166
Sudan, the	530	Wider use for the libraries of scientific societies	335
Sun and the planets, their comparative dimensions. <i>Ill.</i>	582	Winchell, N. H. The crystalline rocks of the northwest. Address to the American association	238
Sun-time and clock-time. <i>Ill.</i>	578	Work of the meridian conference	414
Temple, Sir Richard. The general statistics of the British empire. Address to the British association	214	Wormley, T. G. Microscopic science. Address to the American association	244
Thomson, Sir William. Steps toward a kinetic theory of matter. Address to the British association. <i>Ill.</i>	204	Wurtz, Charles Adolph. <i>Portrait.</i>	6
Thomson, Sir William. <i>Portrait.</i>	430	Young, C. A. Pending problems in astronomy. Address to the American association	192
Thomson's, Sir William, Baltimore lectures	437	Sun-spots and the earth. <i>Ill.</i>	564
Thurston, R. H. The mission of science. Address to the American association	236	Ziwet, A. Euclid as a text-book of geometry	442
The work of Octave Hallauer. <i>Portrait.</i>	306	Zoological researches of the Scottish fishery board	478
Tide-table	577		
Tissandier, G. Navigation of the air. <i>Ill.</i>	531		
Trelease, William. Blooming-times for flowers	573		
Trowbridge, John. Atmospheric electricity	164		
Thunder-storms.	97		

BOOK REVIEWS.

	PAGE		PAGE
Aborigines of Chile	423	Mammals of the Adirondacks	445
Algive and Boulard's Electric light	463	Man's future.	408
American coaster's nautical almanac	20	Mental evolution in animals	16
Bergen's Development theory	311	Merriman's Method of least squares	39
Burton's A B C of photography	464	Metallurgy of primitive nations	21
Caste in India in 1881	557	Minor book notices	311, 463, 520
Census report of 1880	119	Mosses of North America. By <i>S. W.</i>	446
Clarke's Elements of chemistry	500	New-England orchids	498
Contemporary socialism	534	New volume of the tenth census	461
Cotterill's Applied mechanics	406	New-York agricultural station	519
Coues's Key to North-American birds	86	Ohio agricultural experiment-station	279
Eissler's Modern high explosives	278	Origin of the Ohio mounds	151
Exploring voyage of the Challenger. <i>Ill.</i> By <i>G. Brown</i>	116, 176	Palimistry	558
<i>Goode</i>	535	Popular work on American natural history	536
Face of the earth. <i>Ill.</i>	19	Pseudo-science	478
Fiske's Electricity	362	Recent chemical text-books	500
Geological and natural-history survey of Canada	447	Resources of the United States	421
Geology of south-eastern Pennsylvania	120	Science in Manchester	555
Geology of the Susquehanna-river region	500	Scientific butter-making	407
Greene's Lessons in chemistry	464	Sidgwick on fallacies	152
Heap's Report on the Paris electrical exhibition of 1881	173	Society for psychical research. <i>Ill.</i>	40
History of American institutions	380	Synoptical flora of North America	300
Home rambles of an American naturalist	499	Tait's Heat	39
Indian folk-lore and ethnology	556	Tait's Light	444
Indian sign-language	360	Thompson's Dynamo-electric machines	520
Inhabitants of the Punjab	500	Turner's Samoa	378
Jagnaux's Chemical analysis	520	U. S. geological survey. <i>Ill.</i>	62
Kennedy's Wonders of the railway	500	Value of sorghum	479
Kolbe's Inorganic chemistry	310	Vidal's Photometric tables	311
Languages of Africa. By <i>H. H.</i>	380	Virulence of cultivated anthrax virus	276
Life of Ellen Watson	311	Wiedemann's Electricity. By <i>H. S. C.</i>	87
MacLeod's Elementary zoölogy		Wright's Adjustment of observations	520

INTELLIGENCE FROM AMERICAN SCIENTIFIC STATIONS.

Johns Hopkins university, 72. U. S. bureau of ethnology, 22.
U. S. geological survey, 22, 43, 71, 184.

RECENT PROCEEDINGS OF SCIENTIFIC SOCIETIES.

Academy of natural sciences, Philadelphia, 23, 154, 185.
Brooklyn entomological society, 44.
Cincinnati society of natural history, 44, 263.
Engineers' club, Philadelphia, 24.
Minnesota academy of natural sciences, 73.

New-York academy of sciences, 105.
New-York microscopical club, 25.
Philosophical society, Washington, 154, 186.
Torrey botanical club, New York, 45.
Trenton natural-history society, 72, 262.

[Subsequent proceedings of some of the above societies are given in the advertising pages, Oct. 31 and later.]

COMMENT AND CRITICISM, 1, 31, 47, 77, 93, 109, 125, 141, 157, 221, 269, 301, 333, 349, 367, 395, 411, 427, 451, 467, 483, 507, 523
 LETTERS TO THE EDITOR, 3, 32, 49, 78, 94, 111, 126, 143, 159, 222, 270, 302, 334, 351, 368, 396, 412, 429, 452, 469, 484, 509, 524.
 NOTES AND NEWS, 25, 45, 73, 88, 106, 121, 139, 155, 186, 219, 263, 297, 329, 363, 381, 408, 423, 448, 464, 480, 502, 520, 537.
 SCIENCE SUPPLEMENT, 383.

LIST OF ILLUSTRATIONS.

	PAGE		PAGE
Adelaide peninsula, map showing position of, relative to Hudson Bay	opposite 545	Mask, Peruvian burial	11
Aeroplane, experiment with, at Chalais-Meudon, 481; invented by Victor Tatin	482	Mesogonistius chaetodon	338
Africa, map of Joseph Thomson's explorations in eastern	46	Microscope for class-room demonstration	541
Air, simple experiment for showing pressure of	265	Mill, old stone, at Newport	513
Almanack, Bickerstaff's Boston, titlepage of	495	Moraine of the second glacial period, general map of the terminal	68
Amazon River, map of mouth of, 489; sketch on the Ilha dos Porquinhos in, showing the uprooted trees, 490; section of a falling bank on, 490; shore of, washed by the pororóca	491	Muscles, apparatus for measuring strength of	521
Aurora, artificial	466	Netschilluk Inuit (5 figs.) 543, 544; map showing distribution of, about Adelaide peninsula	545
Balloon, map of voyage, Aug. 7, 1884, in, 299; Renard and Krebs, 330; map of voyage in, Aug. 9, 1884, 331; map of Tissandier's voyage, Nov. 9, 1884, in	532	Nicaragua canal, maps of	opposite 434
Barrande tablet	139	Ocean, bottom of, at a depth of 1,500 metres, 104; bottom of, at a depth of 1,200 metres, 170; thermometric curves and corresponding depths of the, 172; bed, profile of the, traversed by the Talisman	172
Bentham, George, portrait and signature of	353	Ojibwa net-float, 528; rat-arrow, 529; weights	528
Blake, deck of the, ready for dredging	402	Paleozoic rocks in Belgium, restoration of a distorted region of	536
Bogosloff Island and Hague volcano	433	Petals, the evolution of	52
Buoy, iron nun, 415; Courtenay's whistling, 416; Pintsch gas, 416; chart of stray, in the North Atlantic	417	Phonograph, novel form of	124
Calendar, church, of the fourteenth century, 493; stone, Mexican	494	Photographic drop-shutter, speed of	454
Challenger, the dredging and sounding apparatus on board the, 117; the relative positions of the ship, the messenger-weights, the toggle, and the dredge at different stages of paying-out from	177	Plants, rotation experiments on germinating (7 figs.)	51, 52
Chelydra serpentina	37	Polar station, Danish international, at Godthaab, Greenland	476
Circumpolar stations, chart of international	opposite 370	Porcupine, dredging arrangements at the stern of the British ship	148
Cream-tester	576	Pot-hole found in a Pennsylvania coal-mine	560
Crystallization sediments (2 figs.)	484, 485	Rana sylvatica	38
Cystophora cristata (5 figs.)	514, 515	Rayleigh, Lord, portrait of	163
Diamond, the largest known	299	Reservoir Butte, showing terraces of the Bonneville shoreline	opposite 47
Dredge, Otto Frederick Müller, 146; the naturalist's deep-sea, 146; the Challenger, 149; first form of the Blake, 149; Verrill rake, 150; Chester rake, 150; Benedict rake, 151; ropes, comparative size of	401	Seal, hooded (5 figs.)	514, 515
Dredging, Sigsbee's accumulator for deep-sea	403	Selawik Lake, entrance to	553
Drumlins (10 figs.)	418, 419, 420	Selected illustrations from contemporary foreign journals: diving-chamber for submarine exploration; Pic du Midi, meteorological and chemical laboratory on (2 views); halo seen at Paris, March 25, 1884; vertical solar ray seen at Paris, March 20, 1884; leaf-butterfly, — in No. 80	542
Earthquake measurements (4 figs.)	516, 517, 518	Sella, Quintino, portrait of	542
Eclipse, map of solar, of March 16, 1885, 579; of Sept. 8, 1885	579	Sieve, Verrill's cradle	404
Electric-light circuits (2 figs.), 123, 124; showing use of storage-batteries in, 388; multiple-wire systems	477	Solar system, chart of	583
Equatorial coude at the Paris observatory	102	Spider towers, burrowing (3 figs.)	115
Fish-Hawk, hoisting and reeling engine of the U. S. fish-commission steamer, 147; forward deck of the	147	Sudan and the Nile, map of	opposite 456
Fly's foot (3 figs.)	219	Sun, view of, prepared by the Harvard college observatory, opposite 563; spot as seen June 30, 1883, 564; spot as seen July 25, 1883, 565; and planets, relative size of, 582; dial, novel form of, 51; spots, two large (4 figs.), 460, 461	228
Gem-engraving, the White dental-engine applicable to	106	Tangles, Verrill's form of	439
Globigerina and Orbulina	171	Telegraph cables, raising of (4 figs.)	439
Grand Cañon, diagram showing erosion of, 64; at the foot of the Torowep	opposite 68	Temperature curves, showing the daily and annual ranges for various places in the United States	570
Greely's party, map showing points visited by	90	Thermodynamics, diagram illustrating possible exception to second law of	431
Hallauer, Octave, portrait and signature of	307	Thomson, Sir William, portrait of	205
Heavens, map of the	opposite 580	Thomson's kinetic theory of matter (2 figs.)	41, 42
Hochstetter, Ferdinand von, portrait and signature of	471	Thought-transference, diagrams (5 figs.)	576
Hôtel des Neuchâtelois	360	Time, diagram showing comparison of mean with solar, at the several seasons of the year, 580; outline-map, with dials showing standard railway	opposite 576
Hudson Strait, map of the north-western shores of	220	Tornado, June 17, 1882, effect of, at Grinnell, Io.	573
Hyla versicolor	38	Tornadoes of Feb. 19, 1883, map of the tracks of	572
Igloo, implements of the (12 figs.)	82, 83, 84, 85	Tracks of fossil elephant, 274; resembling the imprint of human feet, 274; cross-section of impression of, 275; bird	275
Indian chopping-stone	529	Trap, Sigsbee's gravitating	228
Insects, swarming	79	Trawl, the beam, 225; the Blake, 226; wings, 227; safety-hooks for attaching beam, to the drag-rope	403
Jouffroy, Marquis Claude de, statue of	300	Umbra lmi	387
Kasa-an Bay, Cape Grindall, E. $\frac{3}{4}$ N. 12 miles	561	United States, map showing the divisions of the signal-service, of standard time, and the mean annual isotherms in the	596
Korean curios (4 figs.)	173	Well, spouting oil	64
Kowak River, ice-cliffs on	551	Wurtz, Charles Adolph, portrait and signature of	
Laboratory, Harvard physiological, general plan of, 128; half-story of, 129; interior of, 130; interrupter-case in, 131; respiration apparatus in	132		
Lahontan lake-beds in Humboldt valley	65		
Lesley, J. P., portrait and signature of	191		
Mamrang Pass, overturned fold in the	535
